## THREE AMENDMENTS

### TO THE SEPARATE SCHOOL CLAUSES.

The Present School System Continued with Control of Efficiency in Hands of the Province.

#### Bulletin Special.

Ottawa, March 20.—The amendments to the educational clauses of the autonomy bills were laid on the table tonight. Section 16 of the bills is replaced by the following: "Section 23 of the British North America Act, 1867, shall apply to the said province with the substitution for subsection of said section 23 of the following subsection:

"Nothing in any such law shall prejudicially affect any right or privileges with respect to separate schools which any class of persons have at the date of the passing of this act, under the terms of chapters 29 and 30 of the Ordinances of the North West Territories, passed in the year 1904."

[2] In the appropriation by the legislature or distribution by the Government of the Province of any monies for the support of schools organized and carried on in accordance with said chapter 29 or any act passed in amendment thereof or in substitution therefor there shall be no discrimination against schools of any class described in said chapter 29.

[3] Where the expression "By law" is employed in subsection 3 of the said chapter 23 it shall be held to mean the law as set out in said chapters 29 and 30, and where the expression "At the union" is employed in said subsection 3, it shall be held to mean the date at which this act comes into force."

The first difference between the amendment and the original section 46 is that the principles embodied in the existing school law are taken instead of the very wide and somewhat indefinite terms of the educational section of North West Act of 1875. This is to prevent misunderstanding as far as possible by basing the law on the existing and well-understood provisions instead of depending on the possibility of widely varying interpretations of the North West Act of 1875 under the remedial provisions of the British North America Act.

The second difference is that the payment of legislative grants is made subject to the conduct of schools in accordance with provincial laws instead of them being able to demand their share of legislative grants on attendance only, as in Ontario. This latter feature is all-important, as it retains full control of the efficiency of the schools in the hands of the provincial government.

#### Carried over the Falls.

##### Bulletin Special.

Niagara Falls, March 21.—An Italian was carried over the falls while trying to clear the ice from the intake so as not to jam the turbines.

## THE G.T.P. PARTY.

### REACHED EDMONTON YESTERDAY.

#### A Distinguished Group of Canadian Railway Men at the Alberta.

The Grand Trunk Pacific party reached the city last evening in a private car attached to the regular C & E. train. The party is comprised of Messrs. Frank W. Moore, James Carruthers, Geo. A. McNicol, Montreal, E. G. Russell, Victoria, Geo. Carruthers, Winnipeg, E. J. Palmer, Chelmsford, B.C. and A. R. Foy, Chicago, Ill., who are on their way east after spending some time at the coast. On arrival here they were met at the E.Y.&P. station by Mayor McKinzie and Pres. Morris of the Board of Trade and were driven to the Alberta where they are registered.

Last evening the city council met the distinguished visitors at their hotel and conferred with them for some time in an informal way on matters of general interest. This morning the party were driven about the city by Aldermen and other prominent local men.

The purpose of the visit of the party here is to look over the ground and complete the arrangement provisionally made with the city some time since by which in return for a bonus the company undertook to establish their car shops here and make this their divisional point between Winnipeg and the coast. The rate payers some time since authorized the granting of the bonus and it is expected that before the departure of the party the agreement will have been finally signed.

The city council were in session over the matter this morning and it is probable something definite will be accomplished today.

The party will remain in the city until tomorrow.

#### Racing for Harbin.

##### Bulletin Special.

St. Petersburg, March 21.—The latest despatches from Manchuria indicate that the retreat of the Russian army is being conducted uneventfully. The last few days were marked by fighting of a serious nature. The Russians are neglecting no precautions to impede pursuit and hamper the construction of permanent Japanese lines of supplies.

London, March 21.—The whereabouts of the Russian army still remains a mystery. A rigorous censorship has been again enforced by both combatants. Russian troops parted in sadness with General Kuropatkin, who offered to take a subordinate position. Both armies are racing for Harbin.

#### Youthful Incendiarists.

##### Bulletin Special.

Saddle Lake, March 21.—Six boys, Joseph Potras, John Ridgale, Samuel Laboucann, Daniel Beaudry, Joseph Durocher, and Joseph Anderson, ranging in age from 12 to 15 years, were yesterday committed for trial for wilfully setting fire to St. Paul Des Metis boarding school on the night of the 15th of January last. They made no attempt to deny their guilt, the younger boys stating that the older ones urged them to do it. They were taken to Fort Saskatchewan this morning by Constable Chanler.

TUESDAY, MARCH 21st, 1905

**PARLIAMENT.**

Ottawa, March 11th, 1905.

**As to Revenue under Autonomy.**

While the amount of revenue which the new province will receive under the Autonomy Bill is very liberal in comparison with the amounts received by the other provinces, it is not nearly as extravagant as compared with the amount which is now being received by the North West Territories. As provinces the amount to be received on present population is roughly \$2,000,000 while last year the amount received from Dominion sources for expenditure by local Government, and paid for by the Dominion Government for services which under the provincial autonomy must be paid for by the local Government, amounted to \$1,700,000. This is an increase at the start of \$300,000, which is not very great considering the increase of population and the necessities of the country, especially as there is to be no further increase for two and a half years, and then only such increase as is based on population at eighty cents a head.

**Stationary vs. Expanding Revenue**

Until the population reaches 800,000 the land account which is the great resource of revenue remains stationary. Under the present territorial status with the Dominion Government carrying forward its present policy of liberality towards the Territories we might reasonably expect to have a larger subsidy from the Dominion at the end of five years than we will have under the terms of the Autonomy Bill.

**Provincial Charges**

Amongst the services now paid for directly by the Federal Government, which hitherto must be paid by the Provincial Government are: administration of criminal justice, \$70,000; maintenance of jails \$20,000; police services, \$50,000; maintenance of Federal buildings which will become provincial buildings such as court houses, registry-offices, etc., \$75,000; agricultural associations, \$7,000; insane patients now maintained in Manitoba asylums, \$70,000; schools in unorganized districts, \$6,000; Lieutenant-Governor's office \$7,000; road-making specially provided by the Dominion, \$20,000; Battleford bridge, \$13,000. As above on the estimates for the year ending June 30, 1906 there is on these items over \$350,000 now paid directly by the Dominion which hereafter must be paid by provinces besides there is the value of the court-houses, registry-offices and such buildings, which hitherto have been provided by the Dominion but hereafter will be used for provincial purposes and will have to be paid for out of the capital account to the tune of not less than a quarter of a million dollars.

**Provincial Buildings**

Besides this public buildings will have to be provided in both provinces. Certainly they will have to be in Alberta and no doubt will be in Saskatchewan. What the cost will be can only be suggested, but to provide for provincial buildings there is a special sum of \$100,000 a year for the first five years of provincial organization. It is expected that this will make the necessary provisions for provincial buildings and possibly also to some extent provide for the cost of the buildings to be taken over by the local Government. At present the Dominion pays \$40,000 for maintenance of registry offices, but as the revenue largely exceeds the expenditure, this service will show a profit to the province.

**Bridge Demands**

The principle demand upon the financial resources of the new provinces now in sight will be the construction of bridges across the Saskatchewan and its various branches. This is an expense that will continually increase with increase of population. The two provinces are traversed by both branches of the Saskatchewan river. Alberta has the larger number of branches, but the bridges in Saskatchewan will be very much more expensive. At present the North West

Government has demands for assistance for bridges as follows: Fort Saskatchewan \$47,000; Calgary, \$80,000; Saskatoon, \$90,000; Adam's Crossing of the south branch, \$35,000; Battleford, \$200,000; Medicine Hat, \$75,000; repairs to Battle river bridge, \$10,000. The Fort Saskatchewan, Saskatoon and Adam's Crossing bridges are expected to be built in conjunction with railroad bridges and therefore will cost much less than if they had to be built separately. In all these cases the needs is urgent and the expenditure is demanded. Besides there will require to be the usual institutions for the care of the criminal and unfortunate, as lunatic asylum, deaf and dumb asylums, home for incurables, jails, etc. While the revenue of a million a year to each province is probably ample to meet current demands the large capital expenditures required for bridges and necessary public buildings will have to be met by careful financial management. As matters have been going a very large amount of the revenues of the Territories available for public works has been taken up in the construction of steel bridges; but the territorial resources were not sufficient to warrant the Government in taking up these larger bridges which are now being demanded and which in the course of settlement and improvement must necessarily be constructed. No other province in the Dominion is situated in regard to bridge requirements as are the two new provinces, and it is well that the financial arrangements have been placed on a liberal basis, not only to start with but to increase with increase of population.

**Subsidies Compared**

A comparison with the actual amounts received by other provinces may be of interest:

Ontario with a census population of 2,182,947, receives a total annual subsidy of \$1,339,287; Quebec with 1,648,898 population, receives \$1,086,713 annual subsidy; Nova Scotia, with a population of 459,974, receives a subsidy of \$432,805; New Brunswick, with a population of 331,120, receives \$491,360; British Columbia, with a population of 178,057, receives \$307,076; Prince Edward Island, with a population of 103,259, receives \$211,641; The North West Territories, with a total population of 158,940 in 1901, and an estimated population of 500,000, receives for the year ending June 30th, 1905, \$1,111,979 for disposal by the Territorial Government, exclusive of sums paid by the Dominion for what will hereafter be provincial purposes. Manitoba, with a population of 255,211, receives \$533,327. The two new provinces on an estimated population of 500,000 will receive a subsidy of \$2,100,000 a year for the first five years for current expenditure and \$100,000 a year additional for capital expenditure.

**Possible Better Terms Paid**

There are rumors of an attempted hold-up of the Autonomy Bill by representatives of some of the eastern provinces, with a view to squeezing better terms for themselves as the price of their assent to the favorable terms accorded the territories.

## THE BATTLE OF MUKDEN

## JAPS TOOK THE INITIATIVE.

Russian Troops were Massed for an Offensive Movement when Oyama Struck.

The struggle for the possession of Mukden cost both sides close upon 200,000 men. The Russian loss of officers includes a large proportion of the regimental commanders and field officers. All the newspaper correspondents, with the exception of three or four, have left for the north because there is nowhere to live and nothing to eat. Many of the Russian officers are in a surly mood, and much grudgingly given information is colored with jealousy and the rampant spirit of cabal. However, it is possible now to give a general view of the battle, the collected story emanating out of the confusion incident to the evacuation of Mukden, and the forced retreat to Tie Pass.

On February 24 all was ready for an attack on the westward. Various portions of the army had been disposed for an advance on the right flank; suddenly in the evening of that day, the order to advance was cancelled, and a second order was given for the transfer of General Rennenkampf's First Siberian corps and several other organizations to the left flank, which was being pressed heavily by a large force of Japanese. From that time forward, the Japanese, who were well informed as to all the Russian movements, began heavy attacks along the whole front. The Russians generally held their ground, doing well until the 28th February, when an unexpected attack developed in the southwest before which the Russian right, weakened by the withdrawal of almost two corps, yielded. By March 1 it became evident that the Japanese were moving around the Russian right in four heavy columns, and it became necessary to withdraw the thin line from the southwest and form a new line from the river across the Shaho River, parallel with the railway. The change of front was accomplished with remarkable celerity, but the various organizations became badly mixed up. The Russians, on March 4, occupied their former positions on Shaho River as far as the bridge, thence to Madyapu on the Hun River, and then parallel with the railway six miles distant, the right resting on the Simintin road. The Japanese on March 5 began to turn even this position, with a view of cutting off the retreat. The Russian right was extended eastward from the Simintin road to the road-way. On March 7 both sides began most vigorous offensive operations, the Japanese attacking with special energy the forces of Gen. Tseretisky, which were holding the position at Madyapu as far as the heights east of Mukden station, while the Russians under General Gernegross, assuming an attack in the direction of Tatchekiao. On the northern front General Launifron's command beat back all attacks. On the whole, the outcome of the fighting on March 7 was favorable to the Russians who repulsed several attacks on their southern front and assumed the offensive on the left, where General Linewitch's army, occupying eastern hill positions, repulsed numerous attacks and took several hundred prisoners and several machine guns. The continued extension, however, of the Japanese lines northward, and the concentration which their superiority in numbers enabled them to effect against the northern and northwestern fronts, rendered advisable a contraction of the Russian lines and withdrawal from the Shaho river to a position on the Hun River was determined upon. This was in a sense the beginning of the general retreat, though Kuropatkin and the generals commanding the armies were far from regarding the battle as lost. The first army to retire from the fortified positions east and southwest of Mukden was the third army, which fell back to positions similarly fortified in advance on the north bank of the Hun river. The burning of the abandoned stores, provisions and forage, disclosed the Russian retirement, and the Japs followed closely. A confusion in orders and retirement in impenetrable darkness across the country was responsible for the failure of some organizations to occupy the positions to which they had been assigned, and a remarkable dust storm the following day made it impossible to verify the alignment and fill the breeches, which the Japanese,

## SUMMING UP

THE principal features of my Pharaoh Cigar are as follows:

- 1.—Cuban filler—I select from the best grown in the Manicaragua district in the Province of Santa Clara.
- 2.—Connecticut Broadleaf binder—the most expensive grown.
- 3.—Clear leaf Sumatra wrapper, I import direct from Holland.
- 4.—I do not work any tobacco until I age it at least three years—then the taste and fragrance are fully developed.
- 5.—Each cigar is rolled by hand, under my personal supervision—I secure in Pharaoh a steady, even combustion and a cool, sweet smoke.

## HIDEOUS CALAMITY.

CAUSED BY A BOILER  
EXPLOSION.A Massachusetts Factory Wrecked  
and 100 Employees Crushed in the  
Debris.

Bulletin Special.

Brockton, Mass., March 20th.—A hideous calamity occurred here to-day when nearly one hundred were killed and one hundred injured in a boiler explosion at Grover's shoe factory. The appalling instances of human suffering are indescribable at the moment. A large wooden frame factory, a four story structure toppled, and then the rear portion collapsed. In a second this section of the great building was transformed into a mass of iron and wood wreckage in the midst of which human bodies were pinioned. Another moment and flames broke out and death by fire and suffocation became the fate of scores.

When the boiler exploded, it passed upwards through the factory, tearing a passage as it went and killing many. After rising high in the air it descended half the distance, and then swerving northerly cut it way like some huge projectile through two dwelling houses.

Scenes of horror followed. The three upper floors of the factory, weighted with machinery, collapsed, with a crash that was heard for blocks. The men and women operatives working in the departments of this section had time but to turn in an attempt to flee after the first dull roar when the flooring sank and they were carried to the ground floor and crushed amid a mass of debris. Many fell into a veritable fiery furnace. Scores of helpless operatives were caught in the ruins and roasted to death in full view of the by-standers. Despite many cases of heroism and self sacrifice the onlookers were practically helpless to render assistance. Fifty-eight bodies have been recovered so far. The loss will reach a quarter of a million.

Parent Resigns.

Bulletin Special.

Quebec, March 21.—The resignation of Premier Parent has been placed in the hands of the Lieut. Governor but will not be accepted until after the Cabinet Council meeting today.

SETTLER'S HOUSE BURNED

On Wednesday last the residence of J. M. Logan, of Ingo, a settlement about thirty-five miles up the river, was destroyed by fire, together with all the contents. Mr. Logan was absent at the time, and despite the efforts of the family, practically nothing was saved. The fire originated in the kitchen, where a bottle of turpentine was accidentally upset on a stove. The liquid immediately took fire, and filled the room with flames, which swept up the stairway and through the other rooms of the ground floor before they could be checked. Beside the furniture, clothing, etc., twelve sacks of flour and a large amount of provisions, which had been purchased for use during the summer, were destroyed, together with ten bushels of potatoes in the cellar. The total loss is placed at \$2000. There was no insurance on the house or contents, and the blow is a severe one to the settler and his family who have been in the country a comparatively short time. Mr. Logan was in the city today arranging for lumber for a new house, the foundation of which has been already laid.

NO CHAMPIONSHIP  
GAMES.

It is probable that ice or no ice, the hockey matches arranged for this and the two succeeding evenings for the Stephen Cup, will not materialize. The Strathcona team signified their unwillingness to play with the referees chosen by the trustees of the cup and no alternative remains but to default the cup to the present holders.

Solicitor for Applicants.  
dy 66 tf.

## FOUND HUMAN BONES

ON THE RED DEER RIVER.

Ghastly Find which Completes the Story of a Tragic Death.

What is supposed to be a trace of a young man who disappeared very suddenly nearly two years ago, was found last week, when some human bones and a boot were found on the shores of the Red Deer river, at what is known as the canyon, by one of the mill hands.

Corp. Schultz, N.W.M.P., was notified, and took care of the remains. Last week some workmen at the mill were surprised to see a dog carrying a bone with a shoe and sock on. They investigated and the discovery of these remains were the result. The piece of bone, sock and shoe were taken to Lacombe but the other remains are in Red Deer.

A year ago last July, A. A. Content made up a raft of supplies at Red Deer, to be taken to Content. Two men, by the name of Ferguson and Colwell, of Red Deer, wished to raft their goods down to the same vicinity. A joint raft was made and the party started. Between Red Deer and the Canyon, so the story goes, the raft got stuck on a small island. Colwell got off to shove it away when suddenly the raft shot out of reach of Colwell and he was left on the island. Some time later a search was made, but was of no avail.

From that day to this nothing has been seen or heard of the unfortunate young man until last week when some bones were discovered in the river a few miles below the fatal island. There is a bone of the leg, several ribs, the thigh bone and a piece of the upper jaw. The jaw has three teeth, one of which is filled with gold, and it is by this gold filling that the police are in hopes of identifying the remains. There is also a part of a shoe with a heel plate in it.

B. Colwell came to Red Deer from St. Johns, N.B., after serving in the South African war. He worked in the brickyard there until he decided to take up ranch life near Content. He was on his way there when he disappeared. His parents came to Red Deer to inquire into the mystery but were unable to get much information.

The Mounted Police have the case in hand and are endeavoring to unravel the mystery surrounding the disappearance, as well as to get evidence for identification.

## MADE RECORD TRIP

FROM DUNVEGAN TO EDMONTON

Member of MacDonnell's Survey Party reached the City on Saturday evening from the Far North.

Mr. H. Round, of MacDonnell's survey party, reached the city on Saturday evening from Fort Dunvegan. The party left Edmonton on October 1, and arrived at Fort St. John on November 1. The journey from Peace River Landing to St. John, a distance of 185 miles against a strong current, was made in eight days. This is record time.

The fall was exceedingly fine. The sign of ice running in the river on November 18. Light snow fell on November 25. From this date forward, snow falls occurred at short intervals.

The ice jammed a few miles below the fort November 28, but the river in front of St. John remained open all winter, making fuel difficult to procure.

By New Year, the snow was very deep and eventually attained a depth of 2 ft. 6 in. in the open. At Clear River, 50 miles below St. John, the snow was three feet deep.

On Mr. MacDonnell's arrival at Dunvegan in January, a team was sent up the river to move the St. John contingent further east, but owing to the depth of snow and the rough ice, piled in some places from 8 to 10 feet high, and the scarcity of horse feed, the team was compelled to return.

Teams were then sent forward with hay and oats, to be cached on the way, and a second expedition, under Mr. MacDonnell moved west and succeeded in reaching St. John on February 24.

The party left for Dunvegan, February 26. The Chinook wind, which started February 22, continued. The hills became quite bare and the creeks became torrents of water. The heavy thaw soon played havoc with the ice, which, owing to the lateness of fall and heavy snow, was not as strong as usual.

On arrival at a point near the mouth of M'Kinnon's River, the party became aware that one of the teams, bringing hay and oats, for use to destination, had dropped through the ice and was drowned in 11 feet of water running at about five miles an hour. The harness was also lost. Many detours were made to avoid dangerous spots.

Dunvegan was reached on March 4. The thaw which commenced February 22, continued without a break, making it impossible to move the expedition. Melting snow and water

THE GREAT WEST  
LAND CO., Ltd.

would not admit of dogs being used while sufficient feed for horses could not be carried with a small outfit.

Mr. Round started from Dunvegan on March 8. The creeks were running and ice covered with water.

Peace River Landing was reached on the 10th. A start was made for Lesser Slave Lake the same day at 3 p. m.

Mr. Round arrived at the Lake on the 12th and was able to continue the journey the following morning and pulled in at Athabasca Landing on the evening of the 16th, arriving at Edmonton on Saturday evening. An average of 50 miles a day was made for eight successive days. This would have been impossible under ordinary circumstances, but the ice was practically bare the whole way.

The ice trail on the Little Slave river will, by this time, be impassable. The Athabasca was already in a dangerous condition and any person now going on must observe the greatest caution.

Lestock Reid, D.L.S., reached Lesser Slave Lake on the morning of the 13th. The Grand Trunk Pacific party under Featherstonhaugh were above the Moose river, and had departed on the morning of the 15th. The N. W. M. P. contingent were met on Saturday a few miles beyond the Sturgeon.

The coldest day during the winter was February 10, when the thermometer registered 54 below zero. Of the work of the exploration Mr. Round declines to give any information.

There is no chance of much being done until the season opens.

## THE WEE STORE

WHAT HO SHE BUMPS!

"I say, Bill, have you seed the WEE STORE?"

"Well, by Jove now! I thought the south side of Jasper Avenue had a vacant look about it this morning. Guess its gone north with the geese, eh?"

"Not much! its right there on the north corner of 2nd Street and Jasper Avenue west. You know, Bill, I believe, the WEE STORE is going to run the Hudson Bay pretty hard."

"You bet your boots it is."

THE WEE STORE  
For Fruit, Confectionary,  
and Tobacco.

## WANTED.

GOOD AGENTS FOR THE  
Oliver Typewriter

IN ALL

## UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

APPLY TO THE  
CANADIAN OLIVER  
TYPEWRITER CO.,  
183A T. JAMES STREET,  
MONTREAL.

# THE BATTLE OF MUKDEN.

Continued from page three

however, were lucky enough to find, and skilful enough to turn to their advantage. The Russian positions now formed a boot, the toe at Madaya, and the heel on the Hun river at Fushan, about five miles wide, and to meet the apparent danger that the Japanese might plug the top of the boot Kuropatkin sent thither 40 battalions from the command of General Mitroff. The Russians slowly forced the Japanese back at this point, but the latter were reinforced, and General Kuropatkin, determining to stake all on a decisive blow, collected the remainder of the strategic reserves, and several other units, and sent them on personally on March 9 to the north front, and threw them on the flank of the Japanese, who were attacking Saint-Jacques and endeavoring to cut the railway. The Japanese retired, abandoning a battery of eight guns. At this moment it was reported that a column of Japanese were moving further north around the right flank, and that the Japanese on the Hun river had thrust a column through at Fu Pass and Kiatouan, on the instep of the shoe. This position was held by only four companies, which retired before the Japanese cavalry and four mountain guns. With the entire Russian strategic reserves already engaged, it became impossible to meet the danger in these sources, which was immediate and critical, and at eight p.m. the order to retire to Tie Pass was given.

Through the narrow boot-leg passage, scarcely five miles wide, a densely packed mass of transports pressed northward coming under the fire of the Japanese infantry and four mountain guns, which earlier had darted across the Russian line of communication, and concealed themselves in the mountains. General Tseritzky began an orderly retirement from the boot toe during March 10. Kuropatkin successfully held at bay the Japanese who were trying to reach the railroad. On the night of March 9 came the order to evacuate Mukden station and city, with directions that the movement of trains northward must be completed by five a.m. The task was completed in nine hours, including the hasty embarkation of the wounded, who crowded the station platform and occupied the hospitals. Many had already left in the morning when the private trains of Kuropatkin, Kaufmann, Sakharoff, Biderling and Zabelin departed, but thousands remained. At 9.40 eight trains were despatched, and a call was sent to Tie Pass for thirteen locomotives. At three a.m. the second string started northward, and the third of the last train of the third string of 16 departed. All the trains had from 52 to 55 cars. Three trains contained the ammunition of the artillery despatched the evening before in 540 cars, another train carried warm clothing, one was coal laden, and one was loaded with Red Cross supplies, one with engineers' depot supplies, three with commissariat freight, and the remainder with wounded. The last train out with the service train with all the employees of the railroad, property and station papers. This party saved thousands of wounded soldiers, and an immense amount of ammunition, and millions of dollars worth of property and cash. It must be remembered that five miles north of Mukden an incessant fight was in progress. Trains earlier had been bombarded with Shimose shells, and the railroad was twice damaged. The trains travelled unlighted and without whistle under eight minute headway. All about fires blazed in a gigantic ring, burning straw, coal, wood, corn and biscuits. Occasionally boxes of cartridges exploded or rockets burst. Over 3,600 carloads of corn and biscuits, and over 23,000 cubic feet of coal, straw and millet were destroyed. The wounded crowded the station, filled every vacant place in the cars, and the brake beams, buffers and roofs were occupied, while others were hanging to the steps.

Continued on page seven

## Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories and the Yukon Territory.

**Coal.**—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

**Quartz.**—Persons of eighteen years and over and joint stock companies holding a miner's certificate may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction thereof for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof.

When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent on the value of the minerals. Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained. Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold. The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000. Dredging in the Yukon Territory.—A lease of five miles each may be granted to a free miner for a term of twenty years, also renewable. The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August, in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining. Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square. Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within boundaries of a mining recorder's office, one extra day allowed for each additional ten miles or fraction thereof. The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only. Entry fee \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notices and paying fee of \$20. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner. The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospectively by the applicant or his agent; it is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the North-West Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospecting an area of 940 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

Department of Interior, Ottawa, September, 1903.

JAMES A. SMART,

Deputy Minister of the Interior,

THE planters from whom I buy my tobacco in Cuba are the most expert tobacco growers in the world. They keep the plant ripped back carefully—free from suckers and only leaves enough on the plant for it to properly mature and nourish.

In this way the good of the tobacco—the proper qualities to make it excellent smoking, are evenly distributed all through the plant. Thus the leaf I secure for my Pharaoh filler is perfect—an even smoker—palatable and delicately odorous.

J. BRUCE PAYNE, Limited, Granby, P.Q.

For the best I use as binder a Connecticut broadleaf, the highest grade and most costly binder grown—and as a wrapper I import direct from Holland a genuine clear leaf Sumatra—the finest wrapper in the world.—J.B.P.

None genuine unless branded PHA-RO

#### THE BATTLE OF MUKDEN.

Continued from page six

The last train pulled out as General Tseritzky's troops began to pile before the explosion which wrecked the Hun river bridge. There remained eight telegraphers, who had volunteered to stay at their keys until the Japanese arrived. In the hospital of the Livonian division of the red cross and medical staff were 1,000 severely wounded, including 364 Japanese. The Chinese governor of Mukden giving his word to defend them until Mukden was occupied by the Japanese.

Of the military railroad, all but 325 miles was abandoned and the wagonettes destroyed. Several tens of thousands of boxes of ammunition were burned, but most important of all from a material point of view is the loss of the Fushan coal mines, which supplied the road with coal. The trains were heavily bombarded at Switch 97 but came through safely. The retirement of the wagon transport was twice imperiled by panic on the morning of March 10. A Japanese squadron and guns concealed in the mountains, opened fire and the drivers left their wagons and carts, cutting loose their horses or throwing away their stores. Confusion spread to civilians and even gunners and was communicated to some infantry troops. The grey cloud surged on. The Japanese, however, soon ceased firing, and order was restored. Troops following the cannon carried off a few cannon. Soldiers broke open the officers' boxes and portmanteaus and ransacked them for valuables.

Just before dusk another panic occurred at Santaise where many carts had halted for the night. A column of Russians advancing was taken for Japanese, and the cry of "Japanese cavalry" was raised. The unarmed drivers commenced to flee while those with rifles fired. The cooler heads calmed the panic-stricken mass, but many lives were lost and additional property was sacrificed. The retirement of the western and central armies was effected by four roads and also over the fields between. The army of General Linewitch followed the army of General Linewitch followed the end of the road from Fushan, Lim-tan and Fu pass. The third army retired in Echelon, leaving a strong rear guard.

The Japanese, who at nightfall occupied half of Santaise, burst at daybreak into the park of the imperial tombs, and opened a heavy rifle fire upon the passing Russians. The Russians, however, refrained from opening fire. The Japanese bent their efforts to thrust in from the flanks and cut off portions of the army. Several divisions acting as the rear guard under General Lennian were almost surrounded, but broke through the rear guard the night of March 10, held the heights of Suetits and on March 11 and 12 fell slowly back to Tie Pass.

A. E. MAY, Manager

**A Cup of Good Health**

After sleighing, snow-shoeing or tobogganing, enjoy a cup of hot beef tea, made of

**Armour's Extract of Beef**

It's bracing, invigorating, stimulating. Relieves fatigue. Keeps up the glow of health. Just one quarter teaspoonful of Armour's Extract of Beef to a cup of hot water. It's economical.

At all grocers and druggists.  
**ARMOUR LIMITED, TORONTO**  
Sole Packers & Shippers for Canada.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

## Nine Nations

Now Use Liquezone. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Liquezone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know someone whom Liquezone has cured.

If you need help, please ask some of these users what Liquezone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquezone; then let us buy you a full-size bottle to try.

#### We Paid \$100,000

For the American rights to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the

most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

#### Germ Diseases.

These are the known germ diseases. All that medicine can do, for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Arthritis  
Asthma—Anemia  
Bronchitis  
Blood Poison  
Bright's Disease  
Rheumatism  
Coughs—Colds  
Consumption  
Colic—Cramp  
Constipation  
Catarrh—Cancer  
Dysentery—Diarrhea  
Hemorrhoids—Hysteria  
Typhoid  
Liquor—Liquorism

Poison—All Stomach  
Tuberculosis—Tuberculous  
Tumors—Tumors  
Venereal Disease  
Women's Diseases  
All diseases that begin with fever—all infectious diseases—all catarrhs—all contagious diseases—all the results of impure or poisoned blood.  
In serious, debility Liquezone acts as a vitalizer, reconstructing what no drugs can do.

#### 50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.  
Liquezone costs 50c. and \$1.

**CUT OUT THIS COUPON**  
For this offer may not appear again. Fill out the blanks and mail it to The Liquezone Company, 35-36 Wabash Ave., Chicago.

My doctor is.....  
I have never tried Liquezone, but if you will supply me a 50c. bottle free I will take it.

Give full address—write plainly.

Any physician or hospital not using Liquezone will be gladly supplied for a test.

#### Sold on Merit

At all high-grade grocers.

#### DAILY SUBSCRIBERS

Will confer a favor by notifying the Office by phone or otherwise of any failure to deliver; so that explanation can be made and future failure guaranteed against.

## EDMONTON ALTA. CANADA

POPULATION, 7,500

## CITY GOVERNMENT:—

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Pleard, W. A. Griesbach.

Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:—C. W. Sutter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

## LOCAL

—Train on time.  
—Fine May weather.  
—Probs:—Fair and mild.  
—The city council meet this evening.  
—Edmonton Rifle Association meeting Wednesday, 22nd March.  
—The annual general meeting of the board of trade will be held at 3 p.m. on Thursday in the council chamber.  
—The ice in the river is becoming very rotten and crossing at Walters has been practically given up.  
—Supreme court opened this morning at Wetaskiwin. Several prisoners who have been confined here were taken down.  
—Regina Leader: Mr. Harold C. Seymour left yesterday morning to take charge of the National Co-operative Loan Co., office in Edmonton.  
—A meeting of the local branch of the American Society of Equity will be held in Wyllie's hall, Sprucegrove, at 8 p.m.  
—Albertan: James Barrowman, of Fife, Scotland, a prominent zemlemar of those parts and an extensive traveller, was in the city yesterday, leaving for Edmonton this morning.  
—Supt. Pace of the E.Y.A.P. when asked this morning, knew nothing of the origin of the rumor that the C.P.R. would take over the line. He had no information confirming the report.  
—Calgary Herald:—A pleasant incident of the day was a St. Patrick's day, given by Mrs. W. Grant Mackay, at which over 50 ladies were present. Mrs. Mackay's pretty home on sixth avenue was beautifully decorated in honor of the occasion, the predominating color being green. Shamrocks were here, there, and everywhere in most artistic arrangement, and were to be found even in the formation of some of the dainty refreshments provided to the guests, among whom was Miss Webster, the talented Edmonton vocalist.

## PERSONAL

Ed. Sibbald returned to the city from Saddle Lake yesterday.  
Colin Fraser came in from Ft. Chipewyan last week.  
Capt. Strickland came up from the Fort yesterday.  
Judge Harvey went to Wetaskiwin this morning.  
S. A. Dickson deputy clerk of court went to Wetaskiwin today.  
W. J. Hunter and family, of Fort Saskatchewan, were in the city yesterday.  
Harold Goff came in from Dundas, Ont., on Saturday and will reside here in future.

## WILL CELEBRATE VICTORIA DAY.

The Edmonton Driving Club are preparing to celebrate May 24 at Riverdale park with a program of horse races and athletic events. The aggregate cash prizes for racing events will amount to \$500 and suitable inducements will be offered to secure a good list of athletic events. Besides the horse events there will be two running races, one half and one quarter mile respectively.

## CARD OF THANKS.

Mrs. Astley wishes to thank through the Bulletin, all those kind neighbors and friends who so willingly came and assisted herself and relatives in the nursing of Mr. Astley, and wishes to express her sincere gratitude to them for their unflagging devotion and watchfulness when life to all appearances hung in the balance for the whole of one week, as it is impossible to thank them personally, kindly accept the same through this card.

M. H. ASTLEY,  
Astleyville.
